Revenue Narrative

Report Run Date: 2/8/2024

A display value of -0% signifies a value of less than +/- 0.5%

12/31/2020	GRDSM's realized financial losses were at a 38% decrease in revenue between '19 & '20; this equates to a 75% loss in participation from 128 to 32 members in our program or about \$29,574 annually. The majority of our revenue at the time came from camp fees.
12/31/2021	We have a dedicated group of about 100 volunteers annually; this number has been consistent throughout our nearly ten years as an organization. In-kind donations through community partners and local businesses leveraged over \$25K in support; primary contributions came from discounted rental rates at local venues, instrument stores, accounting services, and the marketing agency we work with. The Volunteer & In-Kind support we have received has enabled us to increase programming, without increasing spending. Earned Revenue reflects camp fees, membership fees, ticket sales, revenue from classes, and merchandise sales. Contributed Revenue rose dramatically and primarily came from grants. Board membership dropped, causing a drop in Board specific donations. The decline in Corporate contributions was attributed to financial uncertainties amongst entities who had previously donated to our program, in the wake of the Covid 19 pandemic.
8/31/2022*	With only 8 months represented here, you can see that we were on track to outperform our 2021, 12 month season with at least a 50% increase.Earned - increased mainly due to additional programming & camps.Contributed - '21 average = \$9398.50; '22, 8 mo average = \$9187.63; very close to maintaining our '21 average. Non-Operating - In-kind donations of space, gear, services, and food were further leveraged this year.

Three Months of Operating Cash	\$13,884	\$25,072	81%	\$33,330	33%
Full Cost	\$60,166	\$108,644	81%	\$144,429	33%

Three Months of Operating Cash is the amount of cash or other reserves the organization would need to have on hand to operate for 90 days without any additional earned or contributed revenue.

Full Cost (Expenses + One Month of Savings + Loan Repayments) as concevied by the Nonprofit Finance Fund, expands the definition of expenses to include "hidden costs" such as depreciation on fixed assets, debt repayments, and one month's worth of expenses as a surplus to act as a cushion or contribute to savings, such as for a future rainy day or a strategic opportunity. Though covering the full costs of doing business every year is aspirational for most organizations, doing so ensures longer-term sustainability and vibrancy.

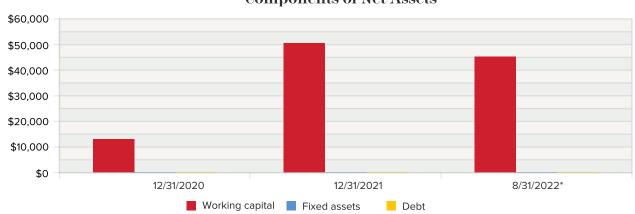

Expense Narrative

12/31/2020	Covid led to a corresponding decrease in programming offered, and general expenses due to demand dropping 75% in the wake of the pandemic.
12/31/2021	We experienced a tremendous amount of financial growth between our '20 & '21 programming years, beyond even covid recovery considerations. This financial growth primarily came from grants, allowing for an increase in programming. The increase in programming expanded spending while simultaneously opening new channels for revenue, year-round.We did not have any fundraising expenses in '21 because were not able to host our in person fundraising event.

8/31/2022* The 8-month, short year, is misleading in terms of looking at changes in percentages. If this were to demonstrate all 12 months, you would see that our organization grew tremendously in '22, and that we were financially able to leverage and diversify our revenue streams from '21.

Components of Net Assets

Balance Sheet Narrative

12/31/2020	Our total liabilities reflect mainly payroll.
12/31/2021	Total liabilities represents our one, full-time, paid staff.
8/31/2022*	Although we're overall trending down in this section, it is again due to the short year. We are confident that with a
	12-month cycle, there would be positive gains across our balance sheet.
